

Introduction

The Victorian Government and the Apprenticeship Employment Network are committed to maximising employment opportunities for local communities. As part of this commitment, organisations seeking Victorian registration as a GTO are required to provide a statement of industry impact as part of the application process. This statement is aimed at enabling organisations to outline how their proposed supply of goods/services will provide a positive impact on the existing local industry.

Your GTO industry impact statement is an essential part of your application and will be used by the VRQA and AEN to evaluate your application.

Application Process for New GTO registration

Industry Impact Statement

The industry impact statement allows a proposed new GTO application the opportunity to provide comment on how your application will positively impact on the local GTO industry/economy. You will need to ensure you can verify the information you submit and where possible should provide actual numbers of staff/values of goods and/or services in your statement.

It is the applicant's responsibility to ensure that sufficient information is supplied so that AEN and VRQA are provided with a clear understanding of the proposed business scope, long term sustainability and market entry strategy.

Example guidelines for your Industry Impact Statement

What is the direct local impact of your business?

Examples: How many people do you expect employ in your Victorian GTO, where is your business located, what is the ownership)? How many apprentices do you expect employ in Victoria over the next 3 years, what industry sectors, geographical locations? Would any new jobs be created by the proposed GTO?

What is the direct local impact of your submission?

Examples: What goods and services will be provided by/sourced from your GTO. Discuss any partnerships you have in place to support your GTO. Support of host employers. Support for secondary schools. Support for apprentices/trainees?

What is the indirect local impact of your application to become a GTO?

Examples: Do you expect to create new employment/ group training opportunities with businesses that currently do not use group training

Other broader local impacts of your proposed GTO registration?

Industry references

Please provide 3 industry references / letters of support for your registration
